

## KIT LIST for A RESIDENTIAL STAY AT CYE

If you're packing for your child, please take time to go through this with them so they know what clothing they have available to them.

You're going to be doing activities every day where clothes may get very wet and muddy. Make sure you bring enough spares since clothes may not dry fully overnight. It's also important to know that the temperature on the water is generally 5% cooler than on land, so add layers and jumpers for each day accordingly.
